THIRSTY

WINE CLUB

Thirsty Club is focusing on winemakers who are facing the challenge of climate change both by studying traditional winemaking and by innovating in their vineyards. For our 2022 theme, we are highlighting producers who work biodynamically, sustainably and organically with the land and climate as it currently is. These winemakers are hanging hail nets and hand-burying their vines, they are spending their lives with the soil as true agriculturists – producing wine that is unique, delicious and a contribution rather than a detriment to the environment.

THEME 2022

HISTORY + INNOVATION

Quarter I
ON THE MOUNTAIN TOP

Quarter II
EVERYTHING IS NEW AGAIN
